

La vera pasta artigianale

Una lavorazione eseguita secondo **il vero metodo artigianale**, ingredienti genuini ed **un pastificio** con un controllo qualità che nasce dalle mani esperte di chi la pasta la fa da generazioni.

Solo le più pregiate semole di grano duro ed acqua impastate a freddo. La nostra pasta viene trafilata al bronzo, a temperatura bassa ed umidità controllata: tra le dieci e le quindici ore, a seconda del formato.

I nostri pastai controllano ogni singola trafila, ogni pezzo, ogni lotto e lo imbustano personalmente per portare sulle vostre tavole una pasta gustosa e dalla porosità perfetta. Semplicemente buona, realmente **fatta a mano**.

The real artisan pasta

A processing carried out according to **the true artisan method**, genuine ingredients and a pasta factory with a quality control grown by the experienced hands of whom has been creating pasta since generations.

Only the finest durum wheat semolina and cold kneaded water. Our pasta is bronze drawn, at a low and constant temperature: between ten and fifteen hours, depending on the shape.

Our pasta creators control every single die, every piece, every batch and personally bag it to bring to your table a tasty pasta with perfect porosity.

Simply good, truly **handmade**.
